#### **SUMMARY OF THE REASONS FOR DECISION:**

The video recording *Student Enema* is classified as:  
Objectionable.

The video recording tends to promote and support the exploitation of young persons for sexual purposes and therefore falls under a provision of s3(2) of the Films, Videos, and Publications Classification Act 1993 and is deemed to be objectionable.

The publication was previously classified by the Video Recordings Authority, but as there is an additional component attached to this version of the publication it is not identical to those versions previously classified. The video recording must therefore be considered afresh as a new publication.

The feature *Student Enema* contains a scene entitled *Student Enema* that presents a scenario that tends to promote and support the exploitation of young persons for the sexual arousal of the viewer.

A classification of "objectionable" places a limit on the right to the freedom of expression as set out in s14 of the New Zealand Bill of Rights Act 1990. However, in relation to this publication, the classification is considered to be a reasonable limit prescribed by law that can be demonstrably justified in a free and democratic society.
